**WICANDERS®**

# Excellence in flooring

Amorim Revestimentos, a company of the Portuguese Amorim Group, with over 130 years of experience in selected cork products, has developed unique flooring and wall covering solutions throughout its history. Amorim Revestimentos sells its products in more than 51 countries and is known throughout the world as a pioneer in creating top-quality, ground-breaking solutions.

Reflecting a highly sustainable development, the Amorim Group developed a revolutionary process that is adapted to nature's rhythms. The first extraction of cork from the cork oak tree occurs only twenty-five years after planting, following which it is harvested in nine-year cycles, without ever damaging the tree in any way. This method allows the cork oak forest – montado – to fulfil its role of fixing CO<sub>2</sub>, thus actively contributing to reduce global warming. The regular extraction of cork is also a decisive contributor to sustainability: environmental (conserving biodiversity and preventing desertification), social (population settlement and jobs creation) and economic. The company's in-depth knowledge and respect for nature, its continuous investment in technological innovation and highly-specialised staff, have guaranteed its leading position in the international field. **Wicanders** has strengthened its existing cork products (**Corkcomfort**) and wood-on-cork products (**Woodcomfort**), by investing in new product lines such as vinyl (**Vinylcomfort**), linoleum (**Linocomfort**), and parquet (**Parquet**), towards a new phase marked by the evolution from a cork manufacturer to a flooring solutions company.

Cutting-edge technology, know-how, creativity and audacity are merged into an avant-garde approach inspired on nature's values.

## Setting **new standards** for flooring

As a result of advanced technological research, this new flooring for public and private areas has changed the way we envision spaces, suggesting a more liberating and inspiring experience.

Following the latest trends in flooring, **Vinylcomfort** is a new concept in Luxury Vinyl Tile (LVT) floating floors, surpassing existing glue-down floor solutions and other similar surfaces. Positioned as a forerunner in the vanguard of vinyl flooring for residential and commercial environments, **Vinylcomfort** combines a strong design element with the benefits of an innovative structure supported by a double cork layer. The new **Vinylcomfort** collection has revolutionized the range of avant-garde flooring solutions by perfectly interpreting the textures and patterns of noble hardwoods, exotic stones and innovative materials, offering numerous choices in the creation of comfortable and distinctive atmospheres, achieving a perfect match between sustainability and breakthrough solutions.

# A new era for vinyl flooring

With solid technological know-how in developing cork-based flooring,

**Wicanders** has innovated in the vinyl flooring market, presenting a pioneering product for home and commercial spaces.

Thanks to its unique characteristics, **Vinyl**comfort distinguishes from traditional glue-down LVT floors by presenting itself in a floating solution, being also superior to other existing vinyl floating solutions, due to a more advanced structure that incorporates an additional cork layer.

The natural characteristics of cork provide greater walking comfort, as well as improved acoustic properties. The double cork layer also plays a fundamental role in providing heat insulation, offering you unrivalled comfort with reduced energy costs, improving eco-efficiency.

**Vinyl**comfort's excellence is enhanced by the nobility of its visuals. Advanced techniques allowed the beauty and texture of various materials to be re-invented, resulting in a stylish collection. Furthermore, innovative features and dimensions, not available in similar competitor products, enriched even more this collection.

The advantages of this product are not limited to aesthetics, also inviting you to enjoy your time. Providing you with a fast and easy installation, it doesn't require a complex subfloor preparation or the use of adhesives that represent increased costs, time consumption and environmental harm.

From production to installation, **Vinyl**comfort stands out for its exceptional design and excellent performance.

Developed for homes, hotels, shops, offices and other locations where fashion, durability and cleanliness of the floor are decisive factors, this line exceeds all the expectations of interior designers, architects and builders. Surprising ambiences can be created at reasonable cost and within a short period of time. After installation, **Vinyl**comfort confirms its efficiency, ensuring many years of easy maintenance and proven resistance to wear and tear.

# Your design for life

## FEEL NATURAL

### Natural and realistic effects

The matte surface, combined with a wide range of patterns, allows a true material interpretation with effects capable of inspiring unique sensations. The excellence of the visuals is reinforced by a wide range of dimensions available.

## FEEL UNIQUE

### Endless options

Architects and interior designers now have at their disposal a unique collection inspired by nature. Following the latest trends on diverse surfaces as wood, concrete, ceramics, aged metal or natural stone, **Vinylcomfort** exhibits genuine textures felt through a simple look. Create sophisticated or rustic ambiences in new or renovated spaces.

## FEEL SAFE

### A long-lasting surface

Extremely resistant to intense everyday wear and tear, **Vinylcomfort** is your floor for life, at home, shop or office.

# Your wellbeing

## FEEL RELAXED

### **Quiet environments**

It is a well known fact that noise contributes to stress. Composed by a double cork layer, **Vinylcomfort** offers remarkable sound reduction, promoting a harmonious and relaxing environment.

## FEEL WARM

### **Welcoming environments**

The natural properties of cork play a fundamental role in providing heat insulation, offering you unrivalled comfort and hospitality with reduced energy costs. A benefit not only to your investment, but to your health as well.

## FEEL COMFORTABLE

### **Comfort that walks alongside you**

**Vinylcomfort** was designed to provide comfort in the most demanding environments. The double cork layer is soft enough to reduce the impact on your joints and back, allowing you to enjoy natural comfort in the simple act of walking.

# Your time

## FEEL POWERFUL

We create, you live

**Vinyl**comfort saves you time and money. Quick and easy to install, with the CORKLOC® system you are able to transform your environment without interfering with your day-to-day activities, and also profit from its re-use, if you wish to.

Commercial spaces can benefit from a complete overnight transformation with no need to close. It does not require adhesives or complex subfloor preparation. Furthermore, this product comes with an all around edge sealing for increased moisture protection.

## FEEL FREE

### Extra time in your day

Thanks to its easy maintenance, **Vinyl**comfort does not require any special care, providing you with the time and freedom to do what you really like.

However, **Wicanders** offers you a complete care and maintenance system if needed. With a sophisticated look, high performance and durability, this is the floor that invites you to enjoy life.

# Technical Solutions

## A revolutionary concept

**Wicanders** presents a cutting-edge product developed to meet your present expectations and future needs!

**Wicanders** is the first and only brand to offer a floating vinyl product with a double cork layer, allowing unique performance in what concerns thermal insulation, walking comfort and acoustical behavior (impact sound reduction and step sound).

## Atmospheres full of character

Fell your essence in the room you create. See your personality brought to life through 14 unique references with advanced embossing features so that no detail goes unnoticed.

**Vinylcomfort** will enrich your space with charm and charisma.

## Versatility

A floating product combining cork and vinyl, available in two formats conceived for a perfect recreation of the original materials:

905 x 295 x 10.5 mm – non-wood visuals

905 x 185 x 10.5 mm – wood visuals

FLOATING  
FLOOR

- 1.0 Vinyl sheet (with 0.3mm wear layer)
- 2.0 High density cork core layer
- 3.0 HDF – High Density Fibreboard with CORKLOC®
- 4.0 Integrated insulating cork underlay
- All around edge sealing

# Technical Solutions

## Extra performance for the most demanding environments

To address the needs of demanding commercial spaces, **Wicanders** has developed a Commercial collection. With a 0,5mm wear layer, this product is suitable for heavy traffic areas until Class 33 (acc. EN685).

## Unique designs for distinctive ambiances

Create inimitable design options for residential or commercial areas. **Wicanders** has created 14 exclusive visuals from noble wood species to exciting abstract designs.

The character of these visuals is emphasized by the micro-bevelled edges and refined embossing features.

## Innovation

To respect the uniqueness of the visuals, new formats were selected:

605x445x10.5mm – non-wood visuals

1220x185x10.5mm – wood visuals

The resistance of the wear layer combined with a ceramic finish, allows us to give 25 years warranty for residential areas and 15 years for commercial areas until class 33.
